PROFESSIONAL SUMMARY

UI/UX Designer passionate about building scalable, user-centered digital products. Experienced in designing data-driven mobile and web applications with a strong focus on usability, interaction design, and measurable impact. Skilled in translating research insights into intuitive digital experiences that improve efficiency, engagement, and conversion.

CORE SKILLS

- User Research
- Wireframing & Prototyping
- Interaction Design
- Design Systems
- Usability Testing
- Information Architecture
- Mobile & Responsive Web Design
- Conversion Optimization
- Visual Hierarchy & Accessibility

TOOLS

- Figma (Auto Layout, Components, Variants, Interactive Prototyping, Design Systems)
- Adobe Photoshop
- Basic HTML
- Git & GitHub

PROJECT EXPERIENCE

Styvora – E-commerce Mobile App

- Reduced checkout steps from 5 to 3, improving task flow efficiency by ~28%.
- Designed 25+ high-fidelity screens using reusable Figma components.
- Improved product discovery through structured navigation and smart filtering.
- Built interactive prototypes to validate user journeys before development.

Finance Analytics Dashboard (Web Application)

- Structured complex financial datasets into intuitive KPI cards and modular chart layouts.
- Built a reusable UI component library for scalability and visual consistency.
- Improved data readability and scanning efficiency by ~30%.
- Designed responsive layouts optimized for desktop and tablet screens.

Fitness Tracking Mobile App

- Reduced onboarding steps from 6 to 3, minimizing potential user drop-offs.
- Designed progress dashboards with streak tracking and goal visualization.
- Created an intuitive workout logging flow to reduce cognitive load.
- Designed 20+ consistent mobile screens using a structured design system.

EDUCATION

B.Tech – Information Technology (2021–2025)
SIMATS School of Engineering, Chennai

CERTIFICATION

Introduction to Figma – Simplilearn (February 2026)
